

A Message from Suzi Wilson, Course Creator

Hello. I'm Susan Wilson, Stroke Nurse Practitioner for the UNC Comprehensive Stroke Center. I'd like to welcome you to Carolina Acute Stroke Training, which is a program developed by the UNC Department of Neurology stroke faculty and designed by the Education Technology Research and Development team at the UNC School of Pharmacy.

This educational program is sponsored by the North Carolina Stroke Care Collaborative. It's divided into a series of focused learning modules that you can move through in any order. A completion certificate is located at the end of each module. You can print this certificate for your records.

UNC stroke faculty members are available if you have questions. Please don't hesitate to contact me via email and I'll try to respond within 48-72 hours. My email address is provided.

I encourage you to please evaluate these modules. Your feedback is important in helping us improve the content and the learning experience for future health care professionals. Please email me with your suggestions and comments.

We are pleased you are participating in the program, and we sincerely hope the learning modules improve your stroke knowledge.
